

Adjustable angle saw

motor with great appearance and good style.
 new model gear system.
 imported high quality cutting force
 by hydraulic damping cylinder, with smooth cutting.
 can ensure cutting quality.
 can be in one time and make continuous cutting.
 directly into the cutting length can be changed without
 t.
 worktable has wonderful crumbs cleaning effect.
 working the clean environment
 n reduce the machine space.
 two clinders in every head, and kept the cutting security.
 d reducer to adjust the cutting angle in 45° ~157.5°
 ack driven by the imported motor with fully closed gear
 rack drive, fast movement speed and has high accuracy.
