

TS 三维数控钻床 3D CNC Drilling Machine

设备描述 [Machine Description]

本机床主要用于对H型钢、槽钢、方管、矩管等进行轴孔加工。本机床采用3个主轴对型钢3个面进行钻孔加工，每个面都有3个主轴，能装夹3种钻头，具有加工效率高、精度高、操作方便及适用性广等特点，广泛应用于球架、塔架、塔筒格和梁等管架。

The machine is mainly used for drilling holes on square steel tubes, rectangular steel tubes. This machine can drill holes at three different surfaces, each surface has 3 axes and can install three sizes of drill bit, it has high processing accuracy, good operation and wide applicability, widely used in ball joints, tower mast and other pipe structures.

技术参数 Technical Parameter

		TS2400/3	TS2700/3	TS3000/3
H型钢工件宽度范围	Artifacts max. width	100~400mm	100~700mm	100~500mm
H型钢工件高度范围	Artifacts max. height	100~400mm	100~400mm	100~500mm
工件最小长度	Artifacts min.length	2000mm	2000mm	2000mm
工件最大长度	Artifacts max.length	12000mm	12000mm	12000mm

X伺服轴最大速度	X axis max. speed	40m/min	20m/min	20m/min
Y伺服轴最大速度	Y axis max. speed	15m/min	15m/min	15m/min
机床重量	Weight	约12t	约18t	约20t
